

FILIPS ČALIJS

CV / RESUME

ABOUT ME

I have extensive programming knowledge, particularly in JavaScript and Python, with experience in web development using HTML, CSS/SASS, React, Django, and Webpack. I am proficient in version control with Git/Github and have experience with WordPress and Shopify platforms.

At MediaRock, I analyze traffic and data usage to optimize web content. I completed digital marketing courses from Google, where I learned about traffic analysis, SEO, and website updates from a marketing perspective. Additionally, I have skills in Adobe Photoshop and Illustrator and experience working with Figma.
